OCCUPATIONAL THERAPY HONOURS PROJECT

What is the study? Involves refining and testing a draft questionnaire on your participation in everyday life activities and the influences in your environment.

Why is it important? The questionnaire is aimed to assist people to 'get better services' for instance: Preparing you to talk with professionals, Creating goals that suit your needs; Assisting you to identify areas you are satisfied with and areas of difficulty with clinicians; Letting professionals know the areas you want to work on.

What will the study involve for you?

- 2 interviews, approximately 40 minutes each
- Interviews conducted at People with Disability
- Interviews are audio recorded, with permission

• You will fill out a questionnaire and then answer questions, e.g. *Was it easy to understand? Do you think this questionnaire could help you when accessing services?*

We need YOUR opinion to help improve this questionnaire!
